10 Characteristics of Bottega Organica extra-virgin olive oil:

After evaluating hundreds of different oils, our team of scientists arrived to the conclusion that the most effective anti-aging skin oil is extra-virgin Ligurian olive oil when the olives are handpicked at the exact stage of maturation: oleum omphacium.

100% guaranteed purity: made only from same-day handpicked and cold-pressed Ligurian olives harvested from the Bottega Organica farm, nothing added, ever.

Our olive trees are never treated with pesticides or synthetic fertilizers. We have been producing olive oil in exactly the same way for generations.

Our extra-virgin Ligurian olive oil is characterized by low acidity and delicate aroma making it the perfect skin olive oil: olives are handpicked and cold-pressed at the exact right moment to ensure the highest concentration of anti-aging molecules.
